picture post

Taking Pictures with a Mobile Device

1. Orient your camera

2. Place the camera to face north (N on the octagon)

3. Position your camera around the octagon to take 8 pictures.

4. Roll your camera on its back to take the UP picture.

5. Note the date and time.

6. Take a picture of the sign – be sure to note the post name.

If you have the iPhone app, you can take and upload pictures using the app.
